

Happy November everyone!

Let's get right into what's been happening in the rooms at EASCA in October.

ROCKY MOUNTAIN ROOM

- We are so impressed with the kids and their dedication to finishing their homework together before playing or doing any activity. Mason, Eliana, Quinn, Lina and Herman all bring their homework right after school and do their best to finish together.
- This past month the kiddos been making lots of Halloween crafts and activities, they have helped to decorate the center and the room doors. I am sure you all may have noticed all the beautiful art and decorations that were put up on the doors and around he rooms.
- Danton and Mason have been working together to put together an elephant using nuts, bolts, and screws. It's a small project but it is very challenging, they've made a great team working together.
- Nolan, Jackson, and Herman were super engaged with loose parts. using wooden blocks, tools, and other materials set out by staff. They built many towers, structures, and buildings together.
- Enczi and Aron have been constructing tall buildings with Magformers tiles - these are magnetic tiles in an assortment of shapes and colours. They build intriguing and tall structures...and the best part is clean up time...then they get to DESTROY THEM AND MAKE A BIG MESS! The more intricate the structure the bigger the mess!

Enchanted Forest Room

- Kasper, Amelia, and Isabela have been practicing with the Erhu in EASCA! It is a Chinese two-stringed musical instrument held in the lap and played with a bow. They practice a few times a week in the center and are starting to get quite good at it.
- Stella and Emma really love drawing and making little crafts, lately they've been doing little drawing competitions and enjoy spending time together.
- Bruce, Talon and Oliver L., have been up to a variety of things! If you don't see them playing foosball, you can always see them building beyblades out of Lego pieces or using the magnetic car tracks and racing each other.
- Knitting and Crocheting has been a hit with Lina, Rowyn, Isabela, and Amelia. Amelia learned how to make a round by crocheting and made a little pepper! Lina has been asking her mom to knit in the evenings at home too!

Kinders

- The kinders were up to quite a bit in October! All the kinders LOVE sensory play. We've set up sensory play with leaves, water, bubbles, ice, squishy, and slimy materials!
- Jordyn is a natural leader and has been taking the lead in many of the activities and games that they play together. The other children love to follow her lead either inside or outside. Just recently she has been showing the other children how to do somersaults and other gymnastic fun.
- Emma and Caitlyn really enjoyed making perler bead art, and they both worked together to make some awesome creations.
- Oliver T., and Marcus have found that they are good reading buddies and love reading during free play time.
- Alexandros, Adelyn, Jerry and Wei found the river rocks! They play a variety of games like The Floor is Lava and Freeze Tag << all while balancing on the river rocks!
- All the kinders have finally learned the seasons song!

- November 11 – EASCA Closed
- November 11 – Last day for Kernel's Orders
- November 14 – P.D day – EASCA open
- November 15 – P.D day – EASCA open

For the P.D days – Crystal will send out a detailed plan for both days!

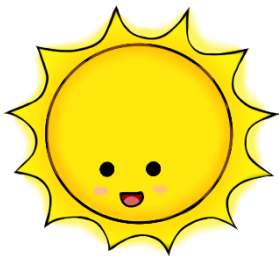

Appropriate wear for outside and updates!

It's starting to get quite chilly outside, so please ensure that you are sending the appropriate outdoor wear for your child(ren)!

Temperature guidelines for EASCA:

- If it is between 0C and -10C – the children wear their coat open, mittens, hats and boots. They will need their snowpants if they are playing in the snow.
- If it is between -11C and -22C - then the children will be expected to wear their coats (zipped up), mittens, snowpants, hats and boots.
 - Many of the children argue with us about zipping their coat, so please take note that the staff cannot force the children, but we can ask your help in talking to your child about zipping up their coat outside.
- If it -23C and below, the children will be staying inside.

As per licensing regulations:

- we cannot go outside in the morning until 15 minutes **after sunrise**.
- we must go back inside 15 minutes **before** the sunset.

Birthday Wish for November!

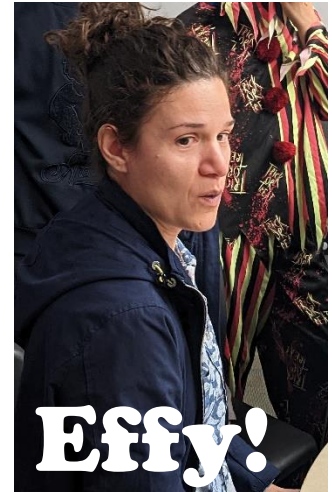

November 20, Elina H. –
I hope I get Magic! And I
hope I have a toy, and I
want everyone happy
forever!

Pumpkin Carving Pizza Night Update!

We want to thank all the families who came out! It was a fun and memorable night, I daresay that it is my favorite family event of the year. There were so many wonderful costumes, cool pumpkins carved and pizza for everyone.

We also want to share a special shout out to those BRAVE, BRAVE parents who CRUSHED the One Chip Challenge!

Many great memories were made and awesome costumes to boot! I will send out pictures that were taken of individual families to their respective family email addresses.

EASCA Pumpkin Carving Pizza

Night 2022!
